# ENGINEERING

## A Textbook on Construction Management

Bhatia, H. S.  
ISBN-9788193725146  
Rs. 1495.00  
Year of Pub. - 2019

### Salient Features

- Clear and Cohesive study of various definitions related to construction management
- Construction planning and project planning
- Organizational charts and quality control of projects
- Construction contracts and contract systems
- Different stages of preparation of project
- Network planning
- Essentials of construction management and valuation
- Specifications
- Technical report writing
- Safety in construction and salient features of safety program

### Special Features

Providing systematic approach in developing understanding with:

- Brief objective type questions and answers
- Objective type numerical and their solutions
- Selective type questions and answers

## A Comprehensive Book on Environmental Studies

Bhatia, H. S.  
ISBN-9788193725160  
Rs. 1695.00  
Year of Pub. - 2019

### Salient Features

- Man and Environment
- Ecology and Environment
- Concept and Scope of Environmental Chemistry
- Ecological Succession
- Different types of Pollution
- Social Issues and Environment
- Current topics in Environmental Pollution
- Disaster Management

## A Comprehensive Book on Solid Waste Management

Bhatia, H. S.  
ISBN-9789389055023  
Rs. 1295.00  
Year of Pub. - 2019

### Salient Features

- Collection of Waste generated through various sources
- Bio gas plants of various types
- Source categories of solid wastes
- Truck routing, crew integration
- Low, medium and high technologies
- Energy recovery
- Analysis Methods
- Incinerators and their types
- Solid waste management through a live sub project
- Biomedical Waste and its complexity
- Emerging process & Technologies
- Waste management system
- Timarpur Power Plant
- Timarpur incineration plant with all its salient feature
- Okhla landfill site and RDF plant
- Bhalswa land fill site with composting plant
- Alternative waste disposal routes

## Industrial Waste and its Management

Bhatia, H. S.  
ISBN-9789389055030  
Rs. 1295.00  
Year of Pub. - 2019

### Salient Features

- Summary of industrial, wastes, its origin, character and treatment
- Typical stream discharge, regulations
- Industrial wastes and their nature
- Reduction, recovery and reuse of water and waste waters
- Methods of separate treatment
- Pre and primary treatment
- Industrial waste water treatment
- Industrial waste disposal
- Miscellaneous treatment processes
- Pollution hazards
- Sludge disposal
- Volume reduction
- Simple guide and code of practice for better house keeping and pollution control in electroplating industry

# MATHEMATICS

## Textbook of Integral Calculus and Elementary Differential Equation Quddus Khan

**Rs. 795.00** | ISBN - 978-93-89055-09-2 | **Year of Pub. - 2019**

Textbook of Integral Calculus and Elementary Differential Equations This book, 'Textbook of Integral Calculus and Elementary Differential Equations' is intended to serve as a textbook for undergraduate and honours students. It will be useful to the engineering and management students, and other applied areas. It will also be helpful in preparing for the competitive examinations like IAS, IES, NET, PCS and other higher education exams. The text starts with a chapter on preliminaries discussing the basic concepts and the results thereof that will be referred throughout the book. This is followed by an in depth study of beta and gamma functions, reduction formulas, areas of curves (Quadrature), lengths of curves (Rectification), multiple integrals, volumes and surfaces of revolution, and elementary differential equations.

### The Author

Quddus Khan, Ph.D., is an associate professor in the Department of Applied Science and Humanities, Faculty of Engineering and Technology, Jamia Millia Islamia, new delhi. He has been teaching UG and PG classes for the last twenty years. He had also taught in Shibli National P.G. College, Azamgarh (U.P.). He had also worked as young scientist (PDF) in the Department of Mathematics, Faculty of Natural Science, Jamia Millia Islamia, New Delhi.

Dr. Khan has to his credit have 20 research papers on differentiable manifold published in various national and international journals, six books on D.G. of manifold, D.G. and its application, tensor analysis and its application, Mathematics for Chemistry, Fundamental concept of recurrent manifold and Sasakian manifold, and Fundamental concept symmetric manifold and Sasakian manifold and has also supervised two Ph.D's.

## Textbook of DIFFERENTIAL CALCULUS Quddus Khan

**Rs. 795.00** | ISBN - 978-93-89055-08-5 | **Year of Pub. - 2019**

This book, 'Textbook of Differential Calculus' is intended to serve as a textbook for undergraduate and honours' students. It will be useful to the engineering and management students and other applied areas. It will also be helpful in preparing for the competitive examinations like IAS, IES, NET, PCS, and other higher education Exams.

The text starts with a chapter on preliminaries discussing the basic concepts and the results thereof that will be referred throughout the book. This is followed by an in depth study of limits, continuity and differentiability, successive differentiation, expansion of functions, tangents and normals, indeterminate, partial differentiation and jacobians, maxima and minima, curvature envelopes and evolutes, asymptotes, and tracing of the curves.

Year of Pub. - 2019

## Introduction

Food colorant can be of natural & synthetic origin, but as we know natural colors besides satisfying our senses give us an array of health benefits. First two chapters deals with why & how natural colors benefit, any one consuming them. It is not only the extracted color but even the source from where we can get colors. How colored foods affect different biological systems and enhance health? Role of specific colors in specific conditions there also discussed. Then, different extraction methods for a particular color, specific procedures to purify and quantify the extracted product are given in detail. The factors responsible for the stability of color with the effect are given. Idea of encapsulation and its effect to increase stability of color are presented. Last but not the least other areas where research can be done successfully are discussed in the book.
